

2021 TECHNICAL RULEBOOK

GENERAL RULES

The general rules apply to each and every driver, mechanic, and/or pit personnel. Some items, obviously, may not apply to each class – it should be easy to determine which rules do not apply to you.

YOU ARE EXPECTED TO KNOW THE RULES.

The rules and/or regulations set forth herein are designed to provide for the orderly conduct of racing events and to establish minimum acceptable requirements for such events. These rules shall govern the condition of all events, and by participating in these events, all participants agree to comply with these rules. **NO EXPRESS OR IMPLIED WARRANTY OF SAFETY SHALL RESULT FROM PUBLICATION OF, OR COMPLIANCE WITH, THESE RULES AND/OR REGULATIONS.** They are intended as a guide for the conduct of the sport and are in no way a guarantee against injury or death to a participant, spectator, or official.

EAMS officials shall be empowered to permit minor deviation from any of the specifications herein, or impose any further restrictions that, in their opinion, do not alter the minimum acceptable requirements. **NO EXPRESS OR IMPLIED WARRANTY OF SAFETY SHALL RESULT FROM SUCH ALTERATION OF SPECIFICATIONS.** Any interpretation or deviation of these rules is left to the discretion of the officials. Their decision is final.

EAMS is private property. Any person on this property without permission of EAMS is guilty of trespass and subject to the penalties prescribed by law. Through your registration or association, you have been given the authority to be on the property in conjunction with racing activities. However, EAMS management reserves the right to make or cancel this authority at any time that is felt your presence or conduct is not in the best interest of the sport of auto racing, your fellow competitors, the fans, management and/or the employees of the raceway.

TRACK REGISTRATION

1. Cars may not race in more than one class per race night, exception: 2 drivers may use the same car in 602 Late Model Sportsman and 602 Charger.
2. Drivers may not race in more than one local class per race night. If a non-EAMS class is competing, drivers may compete in both the Sanctioned Event Race and local class when competing with a different car.
3. It will be the responsibility of all drivers/teams to sign in and pay their entry fees **PRIOR** to the drivers' meeting. Sign in will be conducted at a designated location. **ONLY** a driver or crew representative shall be allowed to sign in the car that is at the track prior to cut off. EAMS officials may draw for drivers/teams not present at the track under exceptional circumstances beyond the control of EAMS officials or the drivers/teams being signed in. The pill draw will be closed once the drivers' meeting has started.

4. Each driver must read and decide if he or she is going to sign the tax registration form and the competition and enforcement portion of the registration form to be eligible to compete in a EAMS event. By doing so, the driver understands that the rules, enforcement calls, and decisions of EAMS are final.
5. PLEASE NOTE: By Entering, Qualifying and/or Racing in a EAMS event, you are accepting these rules as those under which you are prepared to race.
6. It is a condition of entry that the Driver's Registration Form is completed and handed in prior to the driver's first race of the season. If a driver changes cars or teams during the season, it is his/her responsibility to re-register. It is also the responsibility of the driver/team to fill out a Sponsorship Registration Card upon sign in. These cards will be used for the announcement and publication of sponsors throughout the season. If there is a change in sponsorship, it is the driver's/ team's responsibility to notify EAMS Raceway Officials.

RAIN-OUT POLICY

1. Once a feature event is completed within any division after any qualifying has been completed, the racing program will be considered a complete show. Divisions not completing a feature event that evening will run a double feature program the following week, or as EAMS officials determine the best scenario to make up.
 - a. The first feature will be run according to the line-up for the rain date or at the point the feature was halted.
 - b. The second feature will be run according to the blind draw held at the pit window prior to the new night's event start.
